Subject: RE: I oppose Duke's latest rate hike for dirty energy

Dear Mr. Schmerling,

This is to acknowledge receipt of your email to the Public Service Commission. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Assistant

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Fossil fuels and nuclear energy are barbaric, AND totally unnecessary, in light of abundant solar and wind resources that provide far cheaper energy, when all systems are on a level playing field and paying their own costs. Coal and nuclear are only "cheap" when their externalized health and environmental costs are not considered, but we all pay for those.

Make Duke pay for ALL currently externalized costs, and the company will move to renewable energy.

Thank you.

Sincerely,

Mark Schmerling
